

SPECIAL CHAPTERS IN RNA RESEARCH

VIENNA BIOCENTER CAMPUS

2nd lecture day on

Monday, 13th January 2014:

location morning: VBC 5, lecture hall A

location afternoon: MFPL, 6th floor, seminar room 4

09:00 – 10:30

- **Juan Valcárcel Juárez** (iCrea, Barcelona)

Alternative splicing: biology, mechanisms of regulation and impact on human disease

10:45 – 12:15

- **Boris Görke** (Univ. Vienna)

Riboregulation of prokaryotic gene expression

14:00 – 15:30

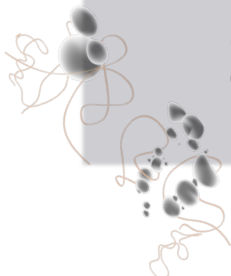

- **Florian Pauler** (CeMM, Vienna)

Mapping and functional characterization of long non coding RNAs

15:45 – 17:15

- **Michael Nodine** (GMI, Vienna)

Small RNA functions during plant reproductive development

University of Vienna & Medical University of Vienna
| 2 ECTS credits |
